LEGISLATIVE ASSEMBLY.

PRIVATE BILLS.

EXCERPT FROM RULES AND ORDERS RELATING TO PRIVATE BILLS.

Rule 76.

ALL APPLICATIONS for Private Bills, properly the subject of legislation by the Legislative Assembly of British Columbia, within the purview of the "British North America Act, 1867"—whether for the erection of a Bridge, the making of a Railway, Tramway, Turnpike Road, Telegraph or Telephone Line; the construction or improvement of a Harbour, Canal, Lock, Dam, Slide, or other like work; the granting of a right of Ferry; the incorporation of any particular trade or calling, or of any Joint-stock Company; or otherwise for granting to any individual or individuals any exclusive or peculiar rights or privileges whatever, or for doing any matter or thing which in its operation would affect the rights or property of other parties, or relate to any particular class of the community, or for making any amendment of a like nature to any former Act—shall require the publication of a notice clearly and distinctly specifying the nature and object of the application, and when the application refers to any proposed work, indicating sufficiently the location of the work, to be signed by or on behalf of the applicant. Such notice shall be published in the British Columbia Gazette and in one daily and one weekly newspaper freely circulating in all parts of the Province. When the proposed Private Bill is of a local nature, the notice shall be furthermore published in some newspaper in the electoral district affected, or if there be no newspaper therein, then in the nearest electoral district in which a newspaper is published. Such notice shall in all cases be continued for a period of six weeks during the interval of time between the close of the next preceding Session and the consideration of the petition.

72. No Petition for any Private Bill shall be received by the House after the first ten days of each Session, nor may any Private Bill be presented to the House after the first three weeks of each Session, nor may any Report of any Standing or Select Committee upon a Private Bill be received after the first four weeks of each Session, and no Motion for the suspension or modification of this Rule shall be entertained by the House until the same has been reported on by the Committee on Standing Orders, or after reference made thereof at a previous sitting of the House to the Standing Committee charged with consideration of Private Bills, who shall report thereon to the House. And if this Rule shall be suspended or modified as aforesaid the promoters of any Private Bill which is presented after the time hereinbefore limited, or for which the Petition has been received after the time hereinbefore limited, shall in either case pay double the fees required as herein mentioned, unless the House shall order to the contrary. Any person seeking to obtain any Private Bill shall deposit with the Clerk of the House, eight clear days before the opening of the Session, a printed copy of such Bill, a copy of the Petition to be presented to the House, *together with copies of the notices published.* Such publication to be proved by affidavit or declaration to the satisfaction of the Clerk of the House. At the time of depositing the Bill, the applicant shall also pay to the Clerk of the House the sum of three hundred dollars. If a copy of the Bill, Petition, and notices shall not have been so deposited in the hands of the Clerk of the House at least eight clear days before the opening of the Session, or if the Petition has not been presented within the first ten days of the Session, the amount to be paid to the Clerk shall be six hundred dollars. If the Bill shall not pass second reading one-half of the paid fees shall be returned.

77. Before any Petition, praying for leave to bring in a Private Bill for the erection of a Toll Bridge, is received by the House, the person or persons intending to petition for such Bill shall,

upon giving the notice prescribed by Rule 76, also at the same time and in the same manner give notice of the rates which they intend to ask, the extent of the privilege, the height of the arches, the interval between the abutments or piers for the passage of rafts and vessels, and mentioning also whether they intend to erect a drawbridge or not, and the dimensions of the same.

78. All Private Bills for Acts of Incorporation shall be so framed as to incorporate by reference the clauses of the General Acts relating to the details to be provided for by such Bills. Special grounds shall be established for any proposed departure from this principle, or for the introduction of other provisions as to such details, and a note shall be appended to the Bill indicating the provisions thereof in which the General Act is proposed to be departed from. Bills which are not framed in accordance with this Rule shall be recast by the promoters and reprinted at their expense before any Committee passes upon the clauses.

82. All Private Bills shall be prepared by the parties applying for the same, and printed in Small Pica type, twenty-six ems by fifty ems, on good paper, in imperial octavo form, each page when folded measuring $10\frac{3}{4}$ inches by $7\frac{1}{2}$ inches. There shall be a marginal number every fifth line of each page; the numbering of the lines is not to be run on through the Bill, but the lines of each page are to be numbered separately. Three hundred copies of each Bill shall be deposited with the Clerk of the House immediately before the first reading. If amendments are made to any Bill during its progress before the Committee or Private Bills, or through the House, such Bill shall be reprinted by the promoters thereof.

By Rule 83, a model form of Railway Bill is adopted. A copy of same can be obtained upon application to the Clerk.

All Bills to incorporate or amend Bills incorporating railway companies are to be drawn in accordance with the Model Bill.

The provisions contained in any Bill which are not in accord with the Model Bill shall be inserted between brackets.

Any exceptional provisions that it may be proposed to insert in any such Bill shall be clearly specified in the notice of application for the same.

In the case of Bills to Incorporate Companies, in addition to the fee of \$300 mentioned in Rule 72, fees calculated on the capital of the company are payable at the same time. Further particulars can be had on application to the undersigned.

Every Petition for a Bill to incorporate a company shall state the name of the proposed company.

DEPARTMENT OF MINES.

"METALLIFEROUS MINES REGULATION ACT."

REGULATIONS RE BLASTING.

HIS HONOUR the Lieutenant-Governor in Council has been pleased to approve the following regulations:—

(1.) No magazine for explosives shall be maintained on any mining property except with the written permission of the Inspector of Mines. The site of this magazine and the style of structure shall be subject to the approval of the Inspector. Where practicable the site of the magazine must be distant at least four hundred feet from the mine or works or any public highway. The magazine shall be constructed of materials and in a manner to ensure safety against explosion from any cause, and shall be either so situated as to interpose a hill or rise of ground higher than the magazine between it and the mine and works, or an artificial mound of earth as high as the magazine and situate not more than thirty feet from it shall be so interposed.

(2.) Cases containing explosives shall not be opened in the magazine, and only implements of wood, brass, or copper shall be used in opening the cases. No scraps or broken portions of cartridges shall be placed in or left lying on the floor of the magazine or store.

(3.) No explosives in excess of a supply for twenty-four hours shall be allowed underground in a working-mine, and no store, for twenty-four hours' supply, shall be established without the approval in writing of the Inspector of Mines, who shall prescribe such conditions in connection therewith as he may deem necessary. When a mine is closed down all explosives shall be disposed of and all unused explosives removed from the mines.

(4.) No naked light shall be taken into any magazine or place where explosives are kept. No person shall smoke in a magazine or place where explosives are kept or while handling explosives.

(5.) The superintendent in charge of a mine or some other responsible person or persons delegated by him shall make a thorough daily inspection of the condition of explosives in or about the same, and shall make an immediate investigation when an act of careless placing or handling of explosives is discovered by or reported to him.

(a.) Any employee who commits a careless act with an explosive or where explosives are stored, or who, having discovered it, omits or neglects to report immediately such act to an officer in charge of the mine, shall be guilty of an offence against this Act, and the officer in charge of the mine shall immediately report such offence to the Inspector or to the constable of the county or district in which the mine is situate.

(6.) No building for thawing explosives shall be maintained in connection with any mine except with the written permission of the Inspector of Mines. The site of this building and the style of structure and equipment shall be subject to the approval of the Inspector. The building shall be under the direction of the superintendent or some person authorized by him. The quantity of explosives brought into any thawing-house at any one time shall not exceed the requirements of the mine for a period of twenty-four hours, plus the amount that it may be necessary to have thawing to maintain that supply.

(7.) In no case shall powder be thawed near an open fire or a steam-boiler or by direct contact with steam or hot water, nor shall any electrical device for generating heat be allowed in the same compartment with explosives.

(8.) A reliable recording-thermometer shall be kept in the room in which explosives are thawed and the record thereof kept, but in the case of a small mine the Inspector of Mines may give permission, in writing, to use a maximum and minimum registering-thermometer on condition that a daily record of high and low temperature be made and kept on file.

(9.) No drilling shall be done in any hole that has been charged or blasted.

(10.) When a blaster fires a round of holes he shall, where possible, count the number of shots exploding. If there is any report missing, he shall report the same to the mine foreman or shifthoss. If a missed hole has not been fired at the end of a shift, that fact, together with the location of the hole, shall be reported by the mine foreman or shifthoss to the mine foreman or shifthoss in charge of the next relay of workmen before work is commenced by them. In case of a miss-fire shot, or suspected miss-fire shot, no person shall be allowed to return to the place where blasting is being done until the expiry of thirty minutes from the time of lighting the fuse. Except in chute blasting, no fuse shorter than three feet shall be used in any blasting operation.

A charge which has missed fire shall not be withdrawn but shall be blasted, and no drilling shall be done within a distance of three feet of a missed-fire shot or a cut-off hole containing explosive until it has been blasted. Every missed-fire shot shall be marked by the insertion of a wooden marker into the outer end of the hole. The shifthoss shall be responsible for directing the angle of the hole and depth to which it shall be drilled.

No person other than the holder of a blasting certificate shall remove or attempt to remove the wooden marker with which a missed fire hole or socket of a hole has been marked.

(11.) In so far as possible, no blaster shall be alone when spitting fuse, and in no case shall he spit fuse without having a second light, placed conveniently close. No more than twelve holes shall be spit in any round of shots by one person.

(12.) The firing of rounds in shafts or winzes shall be done by electric current where such shafts or winzes are deeper than one hundred feet. In winzes or shafts which are sunk at an angle flatter than forty-five degrees electric blasting shall not be compulsory.

(13.) Every blaster shall, before blasting, give or cause to be given due warning in every direction by shouting "Fire," and shall satisfy himself that all persons have left the working-place except those required to assist him in blasting.

Every blaster shall, before blasting, cause all entrances to the place or places where such blasting is to be done or where the safety or persons may be endangered by such blasting to be effectively guarded, so as to prevent inadvertent access to such place or places while such charges are being blasted.

A blaster shall not, where blasting takes place by electricity, enter or allow other persons to enter the place or places where the charges have been fired until he has disconnected the cables from the blasting-battery, or has pulled out and locked the switches of the blasting-circuit.

(14.) Immediately before any person conveys explosives in a shaft by means of machinery he shall give or cause to be given notice to the hoistman, deckman, and cage-tender.

The hoistman shall gently lower or raise the cage or other conveyance containing explosives. No person shall place in or take out of the shaft conveyance any explosives except under the immediate supervision of the person authorized by the superintendent, mine foreman, or shiftboss.

No person authorized to travel with explosives on any shaft conveyance and to distribute same shall leave any explosive at a station or stopping-place, except in a place provided for storage of explosives. Should no storage-place for explosives be provided, he shall personally deliver the same to another authorized person.

(15.) All drill-holes, whether sunk by hand or machine-drills, shall be of sufficient size to admit of the free insertion to the bottom of the hole of a stick or cartridge of powder, dynamite, or other explosive, without ramming, pounding, or undue pressure. No explosive shall be removed from its original paper container.

(16.) No explosive shall be used to blast or break up ore or other material where by reason of its heated condition there is any danger or risk of premature explosion of the charge.

(17.) No explosive shall be used at any mine unless there is plainly printed or marked on every original package containing such explosive the name and place of business of the manufacturer and the strength and the date of its manufacture. Every case of supposed defective fuse, detonator, or powder shall be reported to the Inspector of Mines, with the name of the manufacturer.

(18.) Where operations are large enough to warrant the employment of a man to be in charge of underground magazines, he shall be a competent person, acquainted with the nature of explosives, and it shall be his duty to distribute and keep a record of all explosives which he delivers to the various working-places, and he shall only deliver such amounts as in his judgment are required for twenty-four hours' operation for each working-place.

(a.) The person in charge of underground explosives shall only receive and deliver explosives which are in good order and condition.

(19.) In no case shall detonators be transported in the same conveyance or carried in the same receptacle with any other explosives, safety-fuse excepted.

(20.) No person shall conduct or be allowed to conduct any blasting operations in or about a mine unless

he holds either a provisional or a permanent blasting certificate: Provided that a prospector, having charge of not more than twelve workmen and being the possessor of a special permit authorizing him to carry on blasting operations for the purpose of quarrying, trench cutting, and general surface prospecting, issued by the Inspector of Mines for the district in which such prospector is at the time working, may conduct such blasting operations without being the holder of such certificate.

(21.) Upon engagement a miner, or other person, shall produce his blasting certificate, which shall be retained by the superintendent until the termination of the engagement. Provisional blasting certificates shall be similarly retained by the superintendent. No person who is not the holder of a blasting certificate shall prepare any blast. A blaster may be assisted in preparation and firing of charges by reliable persons who are not the holders of blasting certificates: Provided always that he shall not be so assisted unless such persons are acting under his direct supervision.

(22.) No person other than one holding a blasting certificate or permit, or a person authorized by the superintendent in writing, shall in any mine whatever open or interfere in any manner whatsoever with a box containing explosives.

(23.) Definite instructions must be given by the mine foreman, shiftboss, or blaster at the beginning of a shift or after blasting, to any person who may be required to enter the working-place, of any danger which might exist.

(24.) Permanent blasting certificates shall be obtained from an Inspector of Mines. Provisional blasting certificates valid for a period not exceeding ninety days, or until the first visit of the Inspector of Mines, may be granted by the mine superintendent, or a qualified person authorized by the mine superintendent. No more than one provisional certificate shall be granted to one and the same person. Such certificates may be obtained in blank form from the office of the Chief Inspector of Mines. A duplicate of each provisional blasting certificate issued must be forwarded to the office of the Chief Inspector of Mines, Victoria, B.C.

(25.) An Inspector of Mines may grant permanent blasting certificates to persons who can satisfy him as to their fitness to receive the same. The Inspector of Mines may by an endorsement place any limitation or qualification he may think fit upon the scope of the certificate.

(26.) A mine superintendent or a qualified person or persons authorized by the mine superintendent shall not sign a provisional blasting certificate until he has, or they have, by such means as are available or by inquiry and examination, found that the applicant has a competent knowledge of blasting operations and the rules and regulations referring thereto, and that he is trustworthy and sober.

(27.) The applicant for a permanent blasting certificate must produce satisfactory proof that he is properly qualified to conduct blasting operations.

(28.) If at any time the holder of a blasting certificate issued in accordance with these regulations shall, in the opinion of the Inspector of Mines, be guilty of inattention or negligence in execution of his duties, or shall suffer from any physical infirmity likely to be detrimental to efficient discharge of his duties, such Inspector may immediately suspend or cancel such certificate.

(29.) If at any time the holder of a blasting certificate, whether provisional or permanent, issued in accordance with these regulations, shall, in the opinion of the superintendent, be guilty of a breach of any of these regulations, such superintendent may immediately suspend such person from duties of a blaster, and shall forthwith report any such suspension to an Inspector of Mines for such action as he thinks fit.

The above regulations to come into force on the sixteenth day of January, 1928, and supersede the regulations approved by Order in Council dated the ninth day of April, 1926.
